

Project selected in the framework of the call for projects PAN 2022

Area of intervention: Civic engagement

Project leader	Ara International Community Radio Asbl
Project title	<i>International Journalists : Wafaa Abo Zarifa</i>
Project duration	01.05.2022 – 30.06.2023 (14 months)

Project description

In the framework of this project, the Palestinian journalist Wafaa Abo Zarifa wants to encourage refugee/migrant women to tell their stories. The aim is to go beyond the traditional interview format and to follow those interested in a longer process.

The participants will reflect on their own experiences, learn more about storytelling in workshops, find the right words to express themselves, discuss with the group and then leave the safe space of the workshops to tell their story to the public via the transmission of their testimonies on Radio ARA. This method will provide authentic and personal voices and testimonies of women from different minorities and underrepresented groups in Luxembourg and create visibility.

Target populations

- 15-20 women living in Luxembourg
- Radio ARA's audience of about 9000 people per day

Project objectives

- Increasing the presence of often invisible people through journalistic means
- Raising awareness among the general public
