

Project selected in the framework of the call for projects PAN 2023

Area of intervention: Strengthening associations in their management of cultural diversity

Project leader	Luxembourg multi-LEARN Institute for Interaction and Development in Diversity
Project title	<i>En Bonne Entente dans le quartier de Bonnevoie et au-delà</i>
Project duration	01.01.2023 – 31.12.2024 (24 months)

Project description

The project “En bonne entente dans le quartier de Bonnevoie et au-delà” aims to promote community life and strengthen inter-community life in Bonnevoie.

It also wants to work towards intercultural living together and diversity in all its forms within the district.

The “En Bonne Entente” project sees the Bonnevoie district as a 'field' for observation-participation-experimentation. The project will produce a practical guide to volunteering in a multicultural and multilingual context, which will be useful not only for other districts of Luxembourg City but also for other municipalities in Luxembourg.

Main objectives

En Bonne Entente has 4 main objectives:

- To promote community involvement, community events and community activities in and around the Bonnevoie district;
- Collecting and promoting voluntary association practices in terms of governance, multilingualism and approach to diversity in all its forms;
- Organize participatory public events (such as a race around the world of voluntary organizations in June 2024).
- Publishing and distributing a newsletter on the theme of volunteering today, based on a scientific approach in the field (going out to meet the associations and the people who keep them going).

Target audiences

- Primary target audience: Member associations of the Entente des Sociétés de Bonnevoie.
- Secondary target audience: Bonnevoie neighbourhood associations and residents.
